### Johnny Appleseed

Johnny Appleseed was born on September 26, 1774. His given name was John Chapman, but he earned the nickname Johnny Appleseed because he loved planting apple trees. He owned many apple orchards in New York and Pennsylvania. As new areas in the United States were opened for settlers, he began to travel there to plant apple orchards using seeds from his crops. He created many new orchards in the Great Lakes area. Johnny was a kind man who lived a simple life. Many people could not pay him for his trees, so he traded them for clothes and food. He planted millions of trees and made many friends during his travels. Apples were Johnny's gift to the world!

#### Rules at School

Every school has rules. Rules are important for keeping everyone safe, and for making sure that everyone can learn. There are rules for the classroom, the playground, the cafeteria, and the halls. Although it may seem like there are lots of rules, did you ever wonder what it would be like without them? Imagine a school where everyone could run, yell, and do whatever they wanted. It would be chaotic. If you were running in the halls, you could get hurt, or you could hurt someone else. Too much noise in the classroom keeps students from being able to think and learn. Think of a rule at your school and then think about why it is important.

## My Summer Break

This year was my best summer break ever! 8 I got to go to camp for the very first time! 19 I was nervous about leaving my family for an 28 entire week, and was afraid I could not sleep 37 at night. I have never been away from home 46 for more than one night before! Once I got to 56 62 camp though, all my worries disappeared. 70 There were fun activities planned for us from the time we woke up until the time we went to 81 bed. We played sports, rode horses, hiked, and 89 swam every day! Every night we had a 97 campfire. I was so exhausted every night 104 that I fell right asleep with no trouble at all!  $\parallel \parallel$
